

660988 Sizzix® Bigz™ Die - Village Winter by Tim Holtz®

1. This die is designed to be used with the Village Dwelling die (660992). The dwelling should be built completely with the chimney still detached.

2. Die-cut from desired material.

3. Adhere the snow along the ridge line of the main roof and the portico roof.

4. Wrap the top edge of the assembled chimney with snow. Fold the tabs of the chimney inward and adhere to the ridge line of the main roof. Adhere the window casings to the outside of the house.

5. Adhere icicles to the perimeter of the roof.
