How to use with AllStar® Long and Bigz™ L & XL dies

1. Align the back of die with the back of pressure plate and push down on the handle (Figure A).
2. Slide the Cutting Pad into the machine, so that the pressure plate is above the center of the die, and push down on the handle (Figure B).
3. Align the front of the die with the front of the pressure plate and push down on the handle (Figure C).
