

662275 Sizzix® Framelits™ Die Set - Multi-Frame Shaker Pocket by Lindsey Serata

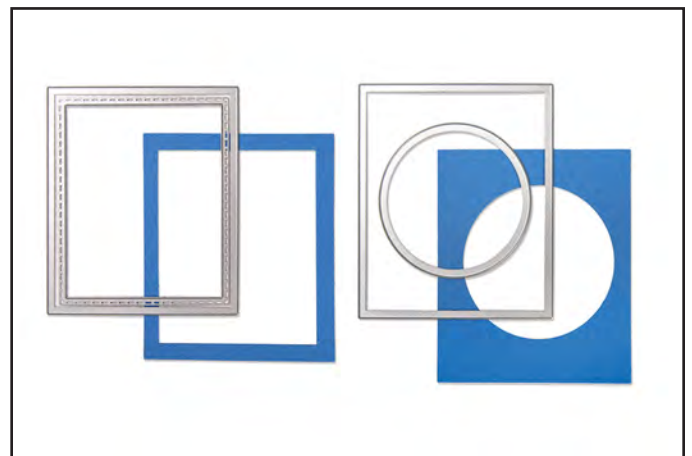

1. Die-cut out of desired material. Apply adhesive to the connector tabs.

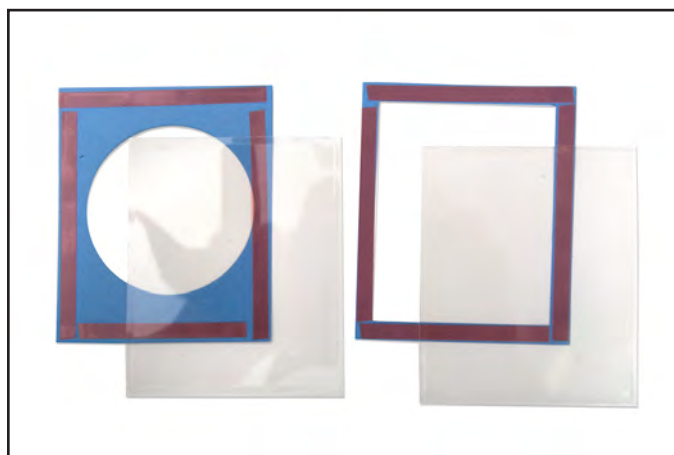

2. Adhere the two sides together using the connector tabs.

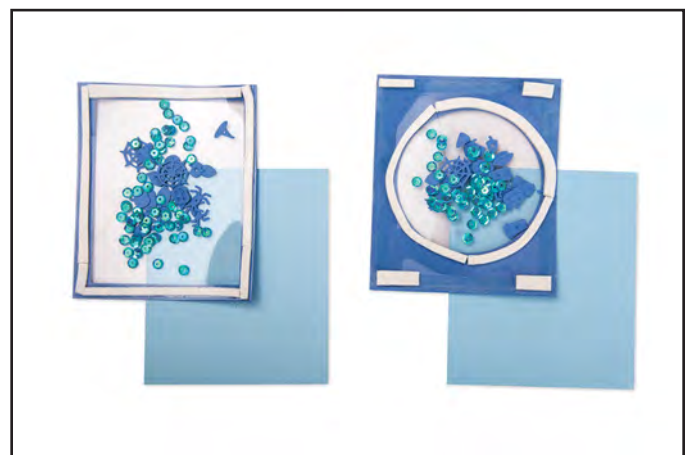

3. The finished pocket is shown above.

4. Cut the shaker frame using the square or circular aperture die.

5. Adhere acetate to the back of the frame opening.

6. Apply adhesive foam tape to the back side of the frame so that it completely borders the cutout. Place confetti inside of the window, and seal using a piece of cardstock.

7. Adhere the shaker frame to the pocket, and embellish as desired.
